## CLOSEOUT MEMORANDUM

Case Number: I-16-0035-O

Page 1 of 1

We opened an investigation after receiving an allegation that funds from an NSF award to a university may have been used for expenditures unrelated to the award, specifically with regard to PI and student salaries.

We requested records from the university and identified issues with over \$50,000 in expenditures charged to the NSF award. Subsequently, we contacted the university, which was able to provide sufficient documentation to resolve the matter.

This case is **closed** with no further action taken.
