## CLOSEOUT MEMORANDUM

Case Number: I-17-0002-O

Page 1 of 1

We received allegations concerning the improper use of the NSF logo by a company. We identified affiliated companies that also misused the NSF logo and made false representations concerning NSF and their products. We consulted with the Department of Justice Consumer Protection Branch on the matter and issued cease and desist letters to the company and its representatives. In response to our letters, the company removed the NSF logo and improper NSF-related representations.

This case is **closed** with no further action taken.
