CLOSEOUT MEMORANDUM

Case Number: I-17-0006-O

Page 1 of 1

A program officer forwarded an allegation of plagiarism in a proposal from a reviewer to our office. We did identify a small amount of copied text, however, it did not rise to the level of research misconduct. The subjects reported the matter to their institution to devise remedial procedures and prevent a recurrence. We sent both of the subjects a Questionable Research Practice warning letter.

This case is closed with no further action taken.
