CLOSEOUT MEMORANDUM

Case Number: I-17-0032-O

Page 1 of 1

We initiated this investigation pursuant to an allegation that a center at a university allowed employees to mischarge to an NSF award. We requested supplementary award information from the university and reviewed these documents along with available award information obtained from internal and external sources. A request for information was sent to the email address listed in the original complaint, but the transaction generated an “undeliverable” email notification. The complainant did not provide any other identifiers or means of communication in the original correspondence with our office. We have concluded that there is insufficient evidence to substantiate the allegations or warrant additional investigation.

This case is **closed** with no further action taken.
