CLOSEOUT MEMORANDUM

Case Number: I-17-0033-O

Page 1 of 1

We investigated allegations that an NSF Principal Investigator (PI) was mischarging grant funds on an NSF award to a university by charging students to her award who did not work on the award. After we reviewed the award general ledger and interviewed the PI and students who worked on the award, we determined that the allegation was unsubstantiated.

This case is closed with no further action taken.
