## CLOSEOUT MEMORANDUM

**Case Number: I-17-0046-O**

Page 1 of 1

A program officer forwarded an allegation of plagiarism from a reviewer to our office. We reviewed the materials provided and found some materials were copied into an attachment to the proposal describing Facilities and Resources. We determined the actions did not rise to the level of research misconduct. We issued a Questionable Research Practice warning letter to the author of the proposal.

This case is closed with no further action taken.
