CLOSEOUT MEMORANDUM

Case Number: I-17-0069-O

Page 1 of 1

This case was initiated after a complaint alleged that an ineligible for-profit organization was improperly receiving SBIR/STTR Phase II supplemental awards intended for the benefit of community colleges. We investigated the matter and determined that the organization was affiliated with a community college, and that the organization's structure and relationship to the community college were sufficient to justify its receipt of said awards.

This case is **closed** with no further action taken.
