CLOSEOUT MEMORANDUM

Case Number: I-18-0034-O

Page 1 of 1

We investigated an allegation that a PI on an NSF award was affiliated with another university and failed to disclose this affiliation to NSF in proposals. We interviewed the PI, reviewed records obtained from the awardee university and the PI, and reviewed the PI's publication history. We found insufficient evidence to establish that the PI had an undisclosed outside affiliation.

This case is closed with no further action taken.
