CLOSEOUT MEMORANDUM

Case Number: I-18-0040-O

Page 1 of 1

We received an allegation that a faculty member at an awardee university failed to disclose his affiliation with a second, separate university in grant proposals submitted to NSF. We interviewed the faculty member, requested information from him and the awardee university by subpoena, and reviewed the faculty member's publications and travel history. We found no formal affiliation with the second university beyond a research collaboration with parties at that university.

Accordingly, this case is closed.
