## CLOSEOUT MEMORANDUM

Case Number: I-18-0082-O

Page 1 of 1

NSF OIG received information alleging “sloppy” accounting practices by a company with an NSF award. It was further alleged that interim project reports were signed and submitted with the name and signature of the PI without his/her knowledge.

When interviewed, the complainant did not have any actual evidence of accounting issues related to the NSF award (beyond a disagreement over compensation) and was unwilling to help identify theft/fraud or assist with the investigation of the alleged forgery.

Thus, absent further cooperation, this case is closed with no further action taken.
