CLOSEOUT MEMORANDUM

Case Number: I-19-0072-O

Page 1 of 1

We received an allegation from an employee (Complainant) of a grantee that grantee staff took adverse action against the Complainant in retaliation for engaging in protected activity. We provided the Complainant with our standard Complaint Form to collect additional information about the allegation, so our office could determine if it had jurisdiction to investigate. The Complainant declined to complete the form and withdrew the allegation.

This case is **closed** with no further action taken.
