## CLOSEOUT MEMORANDUM

Case Number: I-19-0079-O

Page 1 of 1

We received an anonymous allegation regarding misuse of funds in an NSF award. Specifically, it was alleged that the PI had multiple awards and used funds from awards to pay for items and staff associated with other awards. The allegation, however, lacked specificity or evidence.

Our review determined that the PI had only one NSF award and thus could not be using funds from one NSF award to fund another NSF award. Our review also determined that the PI had minimal funding from non-NSF sources.

Accordingly, this case is closed with no further action taken.
