CLOSEOUT MEMORANDUM

Case Number: I-20-0011-O

Page 1 of 1

We received an Institutional Review Board (IRB) report of noncompliance regarding a Principal Investigator who inadvertently recorded non-consented individuals as part of an NSF-funded study. The project manager volunteered to destroy all relevant recordings and to suspend study activities pending IRB guidance. The University prepared and continues to refine a corrective action plan for the study. We determined that the University's actions were adequate. Accordingly, this case is **closed** with no further action taken.
