## CLOSEOUT MEMORANDUM

Case Number: I-20-0021-O

Page 1 of 1

We received an allegation that an NSF proposal contained plagiarized text. A review of the proposal indicated that there was unattributed text from a webpage in the proposal. We wrote to the subject who admitted that he did not provide adequate attribution for the text. The level of plagiarism did not rise to the level of research misconduct, therefore, we wrote a Questionable Research Practices letter to the subject.

This case is **closed** with no further action taken.
