CLOSEOUT MEMORANDUM

Case Number: I-20-0041-O

Page 1 of 1

We received a closed complaint from the NSF Office of Diversity and Inclusion (ODI) that included allegations that an NSF co-PI retaliated against the complainant by interfering with her Ph.D. progress and denying her travel funding to present a conference paper. The ODI complaint did not describe what, if any, actions or award-related disclosures by the complainant led to the alleged retaliation.

We were unable to obtain additional information from the complainant about the allegations and could not establish from the available information that we had jurisdiction to investigate the alleged retaliation.

Accordingly, this case is closed with no further action taken.
