## CLOSEOUT MEMORANDUM

Case Number: I14080027

Page 1 of 1

We received a complaint alleging (1) bias in our resolution of a previous matter<sup>1</sup> and (2) poor merit review quality by an NSF program. We informed the complainant that her concerns about the quality of the merit review of her proposals fall within the purview of NSF management, not our office. We found no evidence of bias in the handling of the previous matter. However, we determined that the closeout for the previous matter should be revised, which we did and so notified the complainant. Accordingly, this case is closed.
