

OIG 91-305

CLOSE OUT OF M90100039

In October, 1990, OIG received two letters objecting to returns of two [redacted] proposals and a declination of one [redacted] proposal. One letter from [redacted] [redacted] alleged no reconsideration of two "returned as inappropriate proposals." One letter from [redacted] [redacted], alleged no reconsideration for [redacted] proposal.

Neither letter addresses a misconduct matter. We advised [redacted] [redacted], that the NSF Grant Policy Manual clearly does not allow for reconsideration of [redacted] proposals and we sent information on how to pursue reconsideration on the [redacted] proposal using established NSF procedures.

We are closing this case because these matters fail to reach the substance of misconduct.
