CLOSEOUT MEMORANDUM

Case Number: I-19-0068-O

Page 1 of 1

We investigated an allegation that a former NSF Intergovernmental Personnel Act assignee did not fully disclose her affiliation with a foreign university in documents submitted to NSF. She was also alleged to have omitted the same information in grant proposals submitted to NSF as a faculty member at a U.S. university.

We interviewed the faculty member; subpoenaed and reviewed information from the U.S. university; and reviewed the faculty member's publications and travel history. We did not substantiate the allegations.

This case is **closed** with no further action taken.
