CLOSEOUT MEMORANDUM

Case Number: I-20-0037-O

Page 1 of 1

This investigation was opened to investigate an allegation that a PI failed to disclose outside employment to a university and omitted the outside affiliations in proposals to NSF. Our investigation did not substantiate the allegation. The PI disclosed his outside affiliations to his university and made partial disclosures regarding the outside affiliations in NSF proposals. We counseled the PI and the university on the importance of accurate and complete disclosures to NSF in compliance with the Proposal and Award Policies and Procedures Guide.

This case is closed with no further action taken.
