CLOSEOUT MEMORANDUM

Case Number: I-21-0004-O

Page 1 of 1

We received an allegation that an NSF proposal contained plagiarized text. Our review discovered that a small amount of text appeared inappropriately copied. Half of the copied text was appropriately cited, but not quoted. We concluded the matter did not warrant a full investigation. We sent warning letters to the PI and co-PIs.

This case is closed with no further action taken.
