## CLOSEOUT MEMORANDUM

**Case Number: I-21-0007-O**

Page 1 of 1

We received an allegation that a researcher and his colleague committed plagiarism by not listing the researcher's former student as an author on a published paper that acknowledged NSF and another federal agency support. Our review found that the alleged plagiarism involved only the other agency's funding and was therefore not within our jurisdiction. We referred this matter to the other agency.

Accordingly, this case is closed.
