CLOSEOUT MEMORANDUM

Case Number: I-19-0013-O

Page 1 of 1

We investigated allegations that an NSF Principal Investigator (PI) submitted false annual reports to NSF, making representations that senior personnel worked on the award when in fact they conducted no work. Our investigation substantiated the allegations and we referred the investigation to the Department of Justice, who settled the allegations under the False Claims Act with the University. Under the agreement the University agreed to pay more than \$800,000.

This case has been closed and no further investigative action will be taken.
