## CLOSEOUT MEMORANDUM

Case Number: I-21-0019-O

Page 1 of 1

We investigated allegations that a university professor and former NSF Program Director failed to disclose his foreign affiliations to NSF. We reviewed the professor's award documents, publications, travel records, internal email communications, university grant records, and obtained prior statements made by the professor to other law enforcement partners. There was no evidence that the professor intentionally withheld any disclosures regarding foreign affiliations, collaborations, or travel. No NSF awards were improperly charged or impacted.

This case is closed with no further investigative action taken.
