## CLOSEOUT MEMORANDUM

Case Number: I-22-0012-O

Page 1 of 1

A University informed us of an allegation of plagiarism in a Subject's thesis. The University conducted an inquiry and identified substantial plagiarism in three chapters of the thesis. The University initiated an investigation. None of the plagiarism identified by the University was for the one chapter of the Subject's thesis that was supported by an NSF award. We therefore determined we have no jurisdiction over this matter.

This case is **closed** with no further action taken.
