CLOSEOUT MEMORANDUM

Case Number: I-19-0040-O

Page 1 of 1

We investigated an allegation that a university professor and his university both failed to disclose foreign-funded grants in proposals submitted to NSF. Our investigation substantiated the allegation, and we referred the investigation to the Department of Justice, which accepted the matter. As a result of the investigation, the university entered into a compliance agreement with NSF to improve its policies and procedures for ensuring accurate disclosures.

This case has been closed and no further action will be taken.
