## CLOSEOUT MEMORANDUM

Case Number: I-18-0032-O

Page 1 of 1

We investigated an allegation that a university professor and his university both failed to disclose dual affiliations with a foreign university and a foreign-funded grant to NSF and other funding agencies. Our investigation substantiated the allegation and we referred the matter to the Department of Justice, which declined to prosecute the matter. As a result of the investigation, the university repaid NSF over \$46,000 in charges that overlapped with the professor's foreign employment.

This case has been closed and no further action will be taken.
