## CLOSEOUT MEMORANDUM

Case Number: I-21-0027-O

Page 1 of 1

We received an anonymous complaint alleging a principal investigator (PI) failed to disclose foreign employment and research funding when applying for NSF grants. We reviewed the PI's award documents, publications, travel records, university grant records, and open-source material. We also interviewed the PI. There was no evidence that the PI intentionally withheld any disclosures regarding foreign affiliations, collaborations, or travel. No NSF awards were improperly charged or impacted.

This case is closed with no further action taken.
