CLOSEOUT MEMORANDUM

Case Number: I-21-0016-O

Page 1 of 1

We received information alleging a principal investigator (PI) failed to disclose foreign employment and research funding when applying for NSF grants. We reviewed the PI's award documents, publications, travel records, university grant records, and open-source material. We also interviewed University representatives. There is no evidence the PI intentionally withheld disclosures to NSF. The case was presented and declined for criminal and civil prosecution.

This case is closed with no further action taken.
