Case Closeout Memorandum

OIG Case Number I-24-0032-O | October 8, 2024

We received an allegation of plagiarism in a proposal submitted by a university, with a PI and co-PI. The proposal named an international collaborator as an author of the proposal. We sent the PI and co-PI inquiry letters. Their responses showed that the international collaborator committed the plagiarism. We determined that the matter did not warrant a full investigation. We sent the PI, co-PI, and international collaborator Detrimental Research Practices letters.

This case is **closed** with no further action taken.
