## **Case Closeout Memorandum**

OIG Case Number I-21-0051-O | February 27, 2025

We examined an allegation that a former graduate student included fabricated and/or falsified data in a figure contained in a paper and his master's thesis. Based on the totality of the circumstances, we determined no further investigatory activity was needed. We sent the graduate student a warning letter reminding him to accurately represent his research results.

This case is closed with no further action taken.
