Case Closeout Memorandum

OIG Case Number I-24-0067-P | March 13, 2025

We assessed an allegation that individuals associated with a laboratory at an awardee university used NSF funds to purchase equipment and chemicals used to make incendiary devices used to firebomb an anti-abortion group. We reviewed records provided by the institution and messages between the individuals associated with the laboratory. We did not substantiate the allegation.

This preliminary case is **closed** and no further action will be taken.
